

Summary of Permit Allowances

Please find below a summary of the various allowances for each league in regard to Permit Players.

Please note the number of total permit players allowed by one club in a season, as well as the number of permit players allowed per game, and that for the Humble Football Netball League, this is difference.

League	Permits Per Player Per Season	Permit Players Per Game
RFNL	10	5
FFNL	10	5
WDJFNL	10	5
SWJFNL	10	5
NRFNL	10	5
HFNL	10	4

Finals Qualification

Each league has their own specific minimum number of games a player must play to be eligible for Finals Football. A Permit Player must meet this requirement to be eligible to play finals.

For AFL Riverina Leagues, Finals Football does not count against the number of permit games a player accrues.

For example, if a player has used all 10 allowed permits in the regular season, they are still able to play Finals Football, as they would have met the minimum qualification requirement of their given league. Finals games do not count towards a player's overall permits for the season.

Clubs are still required to place a permit for this player to participate in finals games, as per the regular season requirements via SportsTG, prior to the 5pm Friday Deadline.

Permit Combinations

When using players from across more than one league on Permit. Clubs must ensure they do not exceed the number of allowed players from a particular league, as well as the maximum players allowed on Permit.

For example:

WDJFNL Club, is allowed up to 5 Permit Players, this can be a combination of HFNL and SWJFNL, however this combination must not exceed the allowable amount from each league. Therefore, if a team uses 4 HFNL Players, they may only use 1 SWJFNL Player, to make up the 5 allowed permit positions.
